1-

Cargo Services

A) STD CONTAINER CARGO

- Our container forwarding service provides the most common support and equipment to move some of the world's most commonly traded commodities.

- For most of our customers, this service provides the support and equipment to move some of the world's most commonly traded goods. However, we understand that not all cargoes are quite this straight forward.

- During our experience, we've learned how to safely handle, stow and transport more complex cargoes, in turn allowing us to extend our dry cargo services to customers looking to ship food-grade, hazardous and rare/precious cargoes

B) REEFER CONTAINER

- When it comes to your refrigerated Cargo, we will take care of every single detail. Concerning high-value pharmaceutical cargo, our reefer experts ensure that your cargo is kept in its suitable condition. We know that you need reliable equipment so we provide you with the most precise temperature control appliances along the route towards your destination.

- Delicate reefer cargo demands specific, hard-earned expertise. From port throughout the voyage and across the land to the final destination. Our professional team provides personal support with carefully analyzing and overseeing the requirements of each cargo. Traversing crucial niche trades throughout the world, we offer you a first-class service with an easy entry into expanding markets, supporting your trade and guaranteeing the safe arrival of your commodities.

C) COMBINING TRANSPORT EXECUTION AND TRANSPORT MANAGEMENT SERVICES

Through our global network of control towers and state-of-the-art technology, we are able to monitor and dynamically react to situations such as adverse weather, additional pick-ups or drop offs, or heavy traffic, meaning that your goods are always travelling the most efficient route.

Our non-asset-based road network provides you with flexibility, improved service levels, accelerated delivery, reduced direct and indirect costs and much more.

D) PROJECT CARGO

- We are proud of our reputation for special cargo transportation and handling facilities.
- We provide global OOG and NSD projects, bringing you first class project cargo management, no matter whether you have a requirement for heavy lift cargo, or for oversized cargo which cannot fit inside a standard container or standardized racks.
- Due to our vast experience of shipping oversized freight, we pride ourselves with the expert project cargo logistics team at your disposal to help with the planning and execution of special loadings, and to assure you of maximum safety and security for each and every cargo project.
- What is out-of-gauge cargo?
- Out-of-gauge cargo is freight which is too large to fit inside one of our standard 20 ft, 40 ft or 40 ft high cube containers. Instead, this cargo can be safely transported on a platform, flat rack or in an open top container.
- Our out-of-gauge service is fully integrated throughout our business, making it simple for you to get expert advice from our maritime shipping specialists, to learn more about our special handling facilities, or simply to make a shipping order.
- Each of our trade service teams has great local knowledge and experience in handling oversized cargo on their individual trade routes. This means that our customers can expect superb continuity without team contact, and can always have the confidence that even the most delicate cargo is in safe hands.
- Ship out-of-gauge cargo with Us.

E) BREAK-BULK CARGO

- Breakbulk cargo is freight which is too large to be transported on a single flat rack or platform. Typically, breakbulk cargo is loaded across multiple flat racks on the deck of a vessel and then secured for shipment.
- We have breakbulk specialist's on-hand to assist with all shipping orders in the XXL cargo category. Due to the requirement of specialist equipment and knowledge, this service is naturally dependent on specific port capability and scheduling, but you can be assured we have an outstanding record in breakbulk and OOG solutions.
- Bulk cargo shipping has been a major part of our business for the last years and we take pride in finding the perfect solution to the individual requests of our customers.
For all breakbulk enquiries please contact us.
- Our customers benefit from a wide range of service features, including:
 - Load, lash and secure the cargo at your origin port or nearby depot.
 - Inland collection and deliveries using variety of equipment.
 - Arrangement of police/inland transport notifications if required.
 - Stevedoring, port lashing and port storage facilities.
 - Competitive rates.
 - Customs clearance and documentation.

2- MARINE CONSULTANCY

- We are ready to be at your service with expert consultancy to provide assistance and efficient solutions.

- Marine Allianz Ship Management provides a full range of independent technical and marine consultancy services covering:

- Vessel Inspections
- Pre-purchase evaluation
- Advise on ship registration
- Preparation of business plans
- Project planning and management
- Newbuilding supervision
- Ship conversion
- Chartering & operations
- Ad-hoc special projects

3- CUSTOM CLEARANCE

- Our extensive knowledge and experience of global Customs clearance procedures can save you time and money.

- Each item of cargo you are importing or exporting must satisfy official Customs formalities and regulations in order to proceed across international borders.

- Having worked closely with international Customs authorities for a number of decades, our customers benefit from fast, efficient processing of their cargo through border formalities.

HOW DO WE ACTUALLY HELP WITH CUSTOMS CLEARANCE?

- Provide expert advice and guidance on all necessary procedures and relevant cargo codification.

- Take you through all the Customs documentation you will need to complete for different cargo types and countries of origin/destination.

- Submit import and export Customs entries on your behalf.

- Authorize some Customs documentation on-site (such as the EUR1 / ATR).

- Provide guidance on likely Customs duty for different cargoes (based on classification code and country of origin with which you provide us).
